

CARE AND MAINTENANCE:

- Clean regularly with normal detergent and warm water.
- Always make a habit of drying your sink after use and buffing with a soft cloth. This will ensure that no buildup of limescale or other mineral deposits can occur.
- Clean the sink once or twice a month using a nonabrasive cleanser such as Barkeeper's Friend and a clean, soft sponge. Scrub in the same direction as the natural grain of the sink.
- Never let soap or other household cleaners dry on the surface of the sink. Most products contain additives which will affect the finish of the sink.
- Never use bleach solutions on the sink, as it is

- harmful to stainless steel. If left on the sink too long, it can cause surface pitting.
- Never use a steel wool pad to clean your sink. Doing so may damage the sink's surface and cause discoloration.
- Minor scratching of the sink's surface is extremely difficult to avoid and is not something to be unduly concerned about. These marks are usually only superficial and can be removed with a proprietary stainless steel cleaner.
- Use of rinse grids will reduce exposure of the bottom of the sink to scratches.

RUVATI LIMITED LIFETIME WARRANTY

This product has been manufactured and inspected to the highest possible quality standards. Ruvati sinks carry a limited lifetime warranty for residential use.

Should you experience any defects in materials or workmanship within the warranty period, we will repair or replace the defective product, subject to the following conditions:

- Any claim made under this warranty must include a copy of a valid proof of purchase showing the date and place of purchase.
- Our obligation under this warranty is to the original purchaser only, and may not be transferred.
- Product replacement does not include shipping costs or labor installation costs.
- This warranty applies to residential installations only.
- Ruvati reserves the right to examine product in question and its installation prior to replacement.
- If an identical replacement product is not available, Ruvati reserves the right to replace the defective product with a similar product.

NOTE: Accessories such as rinse grids, cutting boards, strainers are not covered by this warranty.

This warranty relates to defects in manufacture, materials or workmanship in a Ruvati stainless steel

kitchen sink supplied for installation into domestic premises in the United States. It does not extend to :

- Damage resulting from failure to maintain the product in accordance with the Care and Maintenance instructions in this manual.
- Normal wear and tear, scratches or accidental damage.
- Faults arising from improper use and/or installation.
- Defects in accessories, strainers and rinse grids.

All incidental or consequential damages are specifically excluded. No additional warranties, express or implied are given, including but not limited to, any implied warranty of merchantability or fitness for a particular purpose.

Some states do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

INSTALLATION GUIDE

UNDERMOUNT SINK

RVL2118WH, RVL2122WH, RVL2134WH, RVL2228WH

ATTENTION INSTALLER:

Please read all information below and keep this installation guide for future reference.

Ruvati recommends that this sink be installed only by a professional installer.

Sink edges may be sharp and can cause accidental injury if not careful. Wear cut-resistant protective gloves during installation.

Inspect the sink and box contents immediately upon delivery. If you see any shipping damages on the sink, or missing parts, contact Ruvati Support.

Due to the special nature of this sink, and the various installation options available, no cutout template is provided. Use the actual sink for cutout measurement. Ruvati recommends that an experienced cabinet maker use the actual sink to build a custom cabinet or modify an existing cabinet. **Ruvati is not liable for any damages to sink or countertop or personal injury during installation.**

Follow all local plumbing and building codes.

TOOLS REQUIRED

Plumbers Putty
Silicon Caulk

Jigsaw or Keyhole Saw
Pencil

INSTRUCTIONS

1. Measure the dimensions of the sink opening in the countertop to ensure the sink will fit properly underneath.

2. Construct support structures within the cabinet to align with sink dimensions. Given the standard manufacturing variation of approximately 3mm in side wall dimensions.

3. Carefully position the sink within the opening, ensuring that the built-in supports adequately bear the weight of the sink.

4. Use a level to ensure the sink is evenly and adjust the position if necessary. Ensure that the sink's top surface aligns perfectly with the cabinet's top surface.

5. It's advisable to install the sink with a slight positive reveal of approximately 1/8".

6. Apply a bead of silicone (or chosen adhesive) along the perimeter of the sink's rim. Verify the alignment of the sink with the countertop cutout.

7. Position the countertop cutout over the sink and firmly press it into place.

8. Reconnect the plumbing underneath the sink, including the drain pipes and any other connections. Use plumber's tape or pipe joint compound to ensure a watertight seal on threaded connections.

9. Double-check that the sink is securely mounted and level. Run water in the sink to ensure proper drainage and check for leaks once more.

10. Wipe away any excess sealant or debris from the sink and countertop.
