# HEALTHY SPACES

TWO NAPLES DESIGN AND WELLNESS ENTHUSIASTS JOIN FORCES IN THE NAME OF MINDFUL LIVING

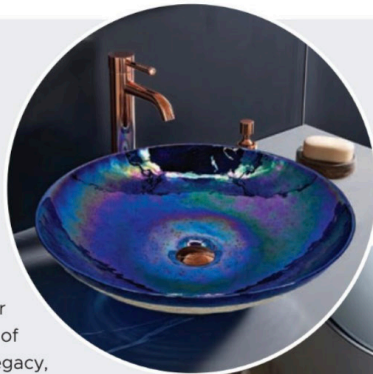

ABOVE INSET RIGHT: At Faro's owner Fabia Bechara and Wellness Design Group principal April Raque are the two founders of Wellness by Design.

ABOVE AND FAR LEFT: At Faro's inventory advocates the sustainable and handmade, as well as biophilic connection.

Founded by April Raque, Wellness Design Group is a firm dedicated to all aspects of healthy living, including designing spaces that "promote a harmonious balance between aesthetics and well-being." Owned and operated by Fadia Bechara, At Faro is a showroom that advocates biophilic design and connection to nature through an inventory that favors sustainable, handcrafted pieces rather than mass-produced disposable items. To say the two Naples-based companies share common ground is an understatement, so we're not surprised to hear about their new partnership, Wellness by Design. As part of this service, Raque will consult directly with At Faro customers and building industry professionals working with At Faro on custom projects to then integrate biophilic design and wellness principles to enhance those interior design commissions. Bechara's role is to design, produce, and provide the custom biophilic furniture and furnishings to be used within each project. "We believe that your environment plays a crucial role in mental health and wellness," says Bechara. "Our mission is to transform spaces into serene sanctuaries that foster well-being." After all, a healthy home is a happy home. [atfaro.com](http://atfaro.com); [wellnessdesigngroup.com](http://wellnessdesigngroup.com)

## GLASS ACTS

Murano is to glass what caviar is to food. The mere mention of the name instantly denotes legacy, pedigree, and superior artistry. Ruvati's new Murano Collection of hand-blown glass sinks certainly lives up to that description. The new line offers two styles: a sleek circular basin and a seashell design in vivid colors of blue, green, brown, or black with a glossy finish that make them ideal choices for a standout powder room.
