COMPACT KITCHEN WORKSTATION

The Siena is the latest addition to the Roma Series of workstation sinks from **Ruvati**. The design features built-in accessories that fit neatly into the basin, which allows the sink to perform multiple functions in tight spaces. The stainless steel sink features a Zero Radius, 10"-deep interior with sharp corners, as well as a SoundGuard undercoating and thick rubber NoiseDefend padding. A rinse grid, basket strainer, stainless steel colander and solid hardwood cutting board are included. The Siena is available in a range of sizes from 15" to 25" and offered with top mount or undermount installation options. ruvati.com

SUSTAINABLE SHOWER BENCH

Balancing style with Universal Design, **QuickDrain USA's** new Shower Bench accommodates the ADA standards for height and exceeds ADA weight guidelines of 250 pounds. The bench is available in three configurations: a rectangle bench and large or small corner bench options, with custom sizes offered. Made with 100% recycled 2" rigid PET plastic foam panels, each Shower Bench installed users up to 400 recycled water bottles. quickdrain.com

SENSORY SHOWER EXPERIENCE

ThermaSol has introduced its most advanced rainhead - HydroVive - designed to bring the multi-sensory powers of light, sound and water under the user's complete control when paired with ThermaSol's Smart Shower Valve and ThermaTouch interface. Key features include a ceiling-mounted light, sound and rainhead environment system in one module; a rainhead shower that delivers a gentle falling water sensation with 300 neoprene jets; sound settings that include volume, treble, mid-range and bass; stereo RCA input; 200 full-color spectrum luminous LEDs, and built-in Bluetooth. thermasol.com

CLASSIC HARDWARE DESIGNS

The Schwinn Originals collection from **Schwinn Hardware** is comprised of three licensed reproductions based on original examples or drawings of designs from famed architects and product designers. The Schwinn 2Z399 Cup Pull, which features an arc in a truncated cone, is based on a design by Egon Eiermann, a German architect, furniture designer and teacher. The pull is available in Polished and Matte Chrome, Satin Nickel, Dark Bronze and Matte Anthracite. schwinnoriginals.com

BATH DESIGN CONCEPT

The D'ART design concept from **Snaidero USA** features vanities in smooth or plissé finishes for a contrast in texture that can be duplicated for the front of the wash-basins. The cabinet doors are either flat with integrated channel or minimally framed by an embossed profile that expands at the top to double as a handle. Metal and wood open shelves, and tall, slim vertical cabinets provide open storage space. D'ART by *Novello/Design Studio Plazzogna*. snaidero-usa.com

SHOWER SHELVES

Schluter-Systems is introducing three new designs in brushed stainless steel for its tiled showers. The designs match with existing Schluter drain grates to provide a cohesive look in the shower. All are available in five different shapes and fit neatly between rows of tile without the need for materials or fasteners to penetrate the waterproof membrane. schluter.com

TOUCHLESS SPRING KITCHEN FAUCET

Three new touchless kitchen faucets that turn on and off without the need to touch the faucet handle have been added to the **Speakman** offering. The faucets are activated by holding a dish or a hand in front of a discrete sensor, with technology that stops the water flow after two minutes. Included in the lineup is the Neo Sensor Spring Kitchen Faucet, which features brass construction and is available in Polished Chrome, Stainless Steel, Matte Black and Brushed Bronze. speakman.com

MODULAR BATH SINK COLLECTION

Stone Forest continues to expand its Elemental Collection, a modular concept that allows for the combination of integral stone sinks, wood drawers and steel, wood or stone shelving in a wide range of combinations. Brass legs with knurled fittings support the components and are available in aged brass, polished nickel and matte black. A walnut finish has joined the collection, as well as a crossbar option that can be added to any of the brass leg configurations that is available in all three finishes. Shown, the polished nickel stand is topped off with a Ventus Bath Sink in honed Carrara marble. stoneforest.com
