BRADLEY CORP.

TOP FILL MULTI-FEED SOAP SYSTEM WASHBAR

Optimize touchless handwashing — and soap refills — with WashBar top fill multi-feed soap system. This innovative design features a large capacity 1.3-gallon (5.0 L) tank that can supply up to three WashBars, allowing maintenance staff to be more efficient by refilling multiple soaps through a single top fill hub. Smart sense system with LED indicator lets staff know when soap and battery levels are low and provides audible and visual indicators to prevent overfilling. Accommodates liquid or foam soap. Ideal for any restroom application with multiple handwashing stations.

THE CHICAGO FAUCET CO.

EMERGENCY EYEWASH WITH LAB NOZZLE FAUCET

Chicago Faucets unveiled its innovative Emergency Eyewash with Lab Nozzle Faucet, a dual-purpose solution for laboratory areas. This product combines a standard lab nozzle faucet with an emergency eyewash station, meeting OSHA standard 29 CFR 1910.151(c) and ANSI/ISEA Z358.1-2014 requirements. The compact design provides quick access to eyewash in case of exposure to hazardous substances. It has a dedicated water supply for the eyewash to ensure the availability of clean water for emergency eye flushing. Compact eyewash units with standard manual or touchless faucets are also available.

RUVATI

FIRECLAY WORKSTATION SINK

Ruvati announced its Fiore workstation sink in a new shade of emerald green. Handcrafted in Italy by talented artisans, fireclay sinks are crafted from locally sourced raw clay and fired at extreme temperatures to create amazing strength and durability, the company says. The smooth enamel finish is impervious to chips, scratches and stains, allowing the sink to easily withstand the demands of today's busiest home kitchens. Integrated ledges along the front and back of the sink support useful accessories that allow the area to be fully utilized for prep and clean-up. Fiore Collection sinks are also available in white, biscuit and glossy black in widths from 24" to 36" and in single and double bowl configurations. Rounded interior corners allow for easy cleaning, while a 9" deep basin is sized to accommodate large pots and pans. Fiore sinks are backed by Ruvati's Limited Lifetime Warranty.

SLOAN

SINK SYSTEM

Sloan's AER-DEC Integrated Sink system combines a soap dispenser, faucet and hand dryer together in a sink basin all within arm's reach to create one touch-free, hygienic, highly efficient system. The AER-DEC saves space and allows for a cleaner design in the restroom by moving the soap dispenser and hand dryer to the deck, while also helping to minimize maintenance by reducing slip and fall risk with fewer wet floors. The integrated sink system is an ideal specification in any high-traffic restroom environment, as well as in health care facilities where touch-free fixtures are paramount.

ZURN ELKAY WATER SOLUTIONS

2-IN-1 KITCHEN FAUCET WITH FILTERED DRINKING WATER

Get fresh, better-tasting filtered water for drinking and cooking straight from the kitchen sink tap. Minimize plastic bottle waste — fill your glass, pitcher, stockpot and dog bowl right at the sink. Plus, there's no need to install a second beverage faucet or rely on inefficient refrigerator filters. This drinking water faucet includes a filter that is tested and certified to NSF/ANSI 42, 53 and 401 to reduce some of the most harmful contaminants: PFOA/PFOS (PFAS), lead, microplastics and more. Keep your customers' water safer with Elkay's Avado 2-in-1 filtered kitchen faucet.
