Ice machine boosts efficiency, reduces cost

TRUE RESIDENTIAL debuts an enhanced 15" Clear Ice Machine, the newest model from its range of full-size and undercounter refrigeration offerings. The Clear Ice Machine demonstrates a number of advancements that include, but are not limited to, an articulating soft-close hinge, a magnetic scoop that affixes to the interior door, and a touch sensitive capacitive interface. In addition, the model utilizes a natural hydrocarbon refrigerant that is both climate friendly and cost effective. true-residential.com

Range hood captures fumes, prevents smoke

FOTILE introduces the Fotile 36" Self-Adjusting Range Hood, a professional-grade, stainless steel range hood that has many advanced and unique capabilities. It features Adjusting Capture Shield Technology, which lowers its plate to capture cooking fumes and prevent smoke from escaping the kitchen. Both air speed and power are increased as the hood captures smoke and grease in the Golden Collection Zone and passes it through the centrifugal motors of the WhisPower System. us.fotileglobal.com

Kitchen faucet features upgraded technology

MOEN elevates any space with sophisticated style through its Cia kitchen collection, which offers voice-activation and touchless functionalities. The Cia pull-down kitchen faucet is available with the company's Smart Faucet technology to bring added convenience to the sink with the ability to control the faucet without having to touch it. Homeowners can use voice control to activate the faucet, dispense specific measurements and temperature and create unlimited custom presets. moen.com

Wall ovens provide additional ways to cook

ELECTROLUX unveils new Frigidaire Gallery single and double wall ovens, which fit most existing cabinet cutouts for easy replacement of similar products. The powerful total convection system offers 15-plus cooking modes, including air fry, steam bake, steam roast and slow cook. Both the single and double ovens have also been reengineered to make installation easier, with handles for easier lifting and high-strength steel that enables them to be lighter and more structurally strong as well. electrolux.com

Sink offers granite look, added functionality

RUVATI captures three of today's hottest design trends and blends them into one choice for a new kitchen sink: the epiCast series. With its apron-front farmhouse style, epiCast checks a big box when it comes to aesthetics. The Workstation model elevates the traditional sink to a whole new level with an impressive range of expanded functionality. And epiCast brings color and character to the kitchen with beautiful granite composites that are a fresh alternative to stainless steel sinks. ruvati.com
