Kitchen design gives compelling experience

SIEMATIC debuts its Mondial kitchen design, one of the most innovative and highly anticipated new kitchens from the iconic German kitchen brand. Mondial features a unique interplay of materials, shapes and tones blended together to create an emotionally compelling kitchen experience. The overall look is sleek yet opulent, and the expressive design speaks a minimalist, modern and geometric language of form without traditional ornamentation and stylistics.

Technology allows greater flexibility, fluidity

SMARTKITCHEN by **GAMADECOR** (part of the Porcelanosa group) brings kitchen design into the future by cooking while using wireless appliances on the same worktop. The new technology achieves a clean and modern aesthetic with the Invisible Cooktop. A sleek, user-friendly touch screen integrated into the porcelain slab countertop allows users to control small compatible countertop appliances, which are wirelessly powered via proximity to the hidden power source.

New hue elevates fireclay workstation sink

RUVATI adds an infusion of color to the kitchen with its Fiore workstation sink in a new shade of emerald green. The color evokes a sense of the outdoors, a feeling of springtime and renewal. Green pairs well with wood cabinetry and offers a dramatic contrast against common kitchen palettes such as white, black and stainless steel. Its farmhouse front shows off the lush color to its fullest advantage, ensuring the sink will be a beautiful design focal point in any kitchen.

Faucet series offers quality craftsmanship

CALIFORNIA FAUCETS presents the CF Limited Series. Standing 15 inches tall, the sleek silhouette, which includes a blend of curves and subtle corners, conceals a pulldown sprayer. Easily released by gently pulling, the sprayer offers a steady aerated stream or wider spray to make cleanup easy. Like all California Faucets products, CF Limited is made of solid brass. It gives homeowners a choice of stick or blade handle and is available in polished chrome, satin nickel and matte black.

Brass prep sink incorporates material palette

STONE FOREST announces a new, handcrafted brass prep sink that makes for a tactile addition to the modern kitchen. The captivating prep sink is constructed with an enigmatic, hammered interior and completed with a warm, luminous finish. The sculptural yet adaptable piece offers designers a material palette that exudes both style and utility through texture and quality. The sink basin is available in brushed or polished brass and accommodates a 3.5-inch kitchen drain. | stoneforest.com
