

INSTALLING A GARBAGE DISPOSAL

This is a standard basket strainer drain assembly. It is designed for attaching your sink to your standard plumbing drain. It cannot be used with a garbage disposal. If you are installing a garbage disposal, you have to use the "FLANGE" that comes with the disposal.

ATTENTION INSTALLER

- Read all instructions carefully before installation. Inspect the item and make sure you have all the parts shown in the parts list.
- If any part is missing or damaged, please contact Ruvati Support at 1-855-478-8284 or www.ruvati.com.
- Consult with a professional plumber if you encounter difficulties or are unsure about any step in the process.

INSTALLATION GUIDE

BASKET STRAINER

RVA1038, RVA1039

INSTALLATION GUIDE

1. Use a pipe wrench to loosen and remove the old basket strainer. If there's a disposal unit, disconnect it from the old strainer as well.
2. Pull out the basket, and look down inside the strainer. You will see a screw. Unscrew it using a coin or flat head screwdriver to disassemble the drain. [Fig. 1]

3. Attach the drain to the sink as shown. [Fig 2]
4. The Black Rubber Gasket goes below the sink. Make sure ribbed side is up.

5. Tighten the screw with a screw driver or coin to secure the drain assembly to the sink.
6. Turn on the water supply and check for any leaks. If you notice any leaks, try tightening the connections or adding plumber's tape.
