Measuring 30" x 8" x 6", the Entertainer is crafted from 16-gauge premium stainless steel. It is equipped with Lenova's signature "X-Channel" drain technology and thoughtfully designed with protective undercoating and rubber padding to absorb sounds. The sink is finished in a beautiful brushed satin resistant to scratches and stains for impressive durability and lasting good looks.

Entertaining has never been easier with this hardworking sink. It takes center stage in the kitchen or bar, becoming a conversation piece and the star of the party. Homeowners and guests alike will appreciate the versatility and convenience of the Entertainer. More than just a sink, it is sure to be a focal point of any social gathering offering beverages and condiments in style. Please visit www.Lenovagroup.com for more information about Lenova and the Entertainer.

THE CLIMATIC CORPORATION ACQUIRES ASSETS OF SADCO INC.

Climatic home products will open a new warehouse in central Alabama to distribute appliances and furniture to independent dealers throughout the Southeast

The Climatic Corporation, a distributor of appliances, HVAC equipment and supplies in the southeastern United States has entered into an agreement to purchase certain assets of SADCO Inc. a 75-year-old distributor of Crosley Appliances and several furniture and mattress brands.

"It gives me great pleasure to announce Climatic/CHP has agreed to purchase certain assets of SADCO Inc. This acquisition will give us Crosley distribution rights in Alabama and will launch CHP in the furniture and mattress business. In addition, CHP will lease a 57,300-square-foot building in Montgomery, Alabama. The acquisition is set to close December 1, 2022." – Gilly Bailey, CEO of Climatic.

This addition will secure Climatic's position as the best-in-class appliance distributors in the Southeast with locations in Alabama, Florida, South Carolina and Texas. Congratulations to Doug Allen and the entire Climatic/CHP team.

Doug Allen, president of Climatic Home Products, says, "The agreement with SADCO Inc. will allow us to offer independent dealers a broader choice of appliances and furniture brands with

just-in-time inventory. We are committed to growing with our partners by remaining their value-added distributor with larger scale and access to more products with just-in-time inventory delivered in 24-48 hours from our warehouses in Alabama, Florida, South Carolina and Texas."

Climatic Home Products distributes Samsung Appliances, GE Appliances, Haier, Crosley Appliances, Sharp Appliances, Verona Appliances, Vitara Appliances, Avanti Products, Britelite, Faber, Broan-Nutone and Peerless Premiere throughout the southeastern United States. Beginning as a HVAC contractor in 1936 The Climatic Corporation is a third-generation family-owned business with more than 170 employees and 500,000 square feet of warehousing. Please visit www.climatic.com for more information.

RUVATI

GOING ALL-OUT FOR OUTDOOR ENTERTAINING

Ruvati's clever Merino model RQV6290 is a workstation sink and insulated ice chest all in one

Ruvati elevates al fresco entertaining to a whole new level with the latest addition to their extensive Merino Collection of outdoor sinks. Model RQV6290 is an ingenious combination of workstation sink and insulated ice chest – a perfect pairing that is certain to be the

centerpiece of backyard parties for years to come. Crafted from marine-grade T-316 stainless steel, this ultra-durable sink is built to withstand weather extremes and is loaded with practical features that make the most of compact spaces. From garden patios and private courtyards to open-air boat decks and waterfront BBQs, the RVO6290 ice chest/workstation is a smart choice for any outdoor kitchen and can handle gatherings large or small with ease.

The innovative ice chest component really sets the RVO6290 design apart from the competition. With double-walled construction and triple layers of insulation, this incredible sink can keep ice frozen for up to 24 hours. Its 10-gallon capacity can accommodate up to 30 cans of beer or 15 bottles of wine. Advanced technology and robotic welding ensure an air-tight seal between the layers of stainless steel, and an additional layer of exterior foam prevents condensation and ensures the inside cabinet will stay dry.

The workstation side of the Model RVO6290 offers all of Ruvati's most in-demand features. Integrated ledges support included accessories such as a stainless steel colander and a thick cutting board made of food-grade polymers that are resistant to water, UV rays and other elements. Its workstation format expands the sink's

functionality with food prep and clean-up all neatly contained in one designated space. The split design sink measures 29 1/4" long by 20" wide and 13 1/2" tall. The workstation basin is 9 1/2" deep, while the ice chest has a bowl depth of nearly 12". For added protection, both sides of the sink are equipped with a bottom rinse grid, and the entire unit is covered by Ruvati's Limited Lifetime Warranty. Visit www.ruvati.com to learn more.

ZEPHYR

ZEPHYR KITCHEN EXPERIENCE APP – DESIGN INSPIRATION FOR THE KITCHEN AND BEYOND

New updates to augmented reality app include Presrv™ Wine & Beverage Coolers

Zephyr, the company that leads the industry in smart design, technology and clean air, announced new updates to its Zephyr Kitchen Experience (ZKE) app. The interactive Augmented Reality (AR) tool lets consumers explore and interact with various range hoods and now includes Presrv™ Wine & Beverage Coolers. The ZKE app lets users view model sizes, explore product features, and virtually place a product in their space or select from one of the preloaded designs.

The new ZKE updates highlight Presrv Wine & Beverage Cooler features such as Full-Extension Wood Racks, Optional Display Rack, Retractable Glass Quarter-Shelf and Electronic Capacitive Touch Controls. Users can also interact with LED lighting in Cloud White, Deep Blue and Amber; visualize cooler capacity through various bottle displays; control temperature range; explore compatible door handle accessories; and more.

The easy-to-use app enables potential Presrv customers to virtually explore the cooler options in their own live environments and at their fingertips. Once the cooler is placed in the space, or a kitchen vignette is selected on the app, users can take a photo to save or share via text.

"Augmented Reality continues to shape the future of virtual kitchen design and gives customers an opportunity to turn inspiration into reality," says Sarah Wahl, VP of marketing. "With all the options on the market today, the ZKE app highlights features and technology that set Zephyr above the competition. It helps bring the vision to life."

In addition to the Presrv Wine & Beverage Coolers, the ZKE app lets users discover kitchen ventilation solutions by selecting different hood styles, sizes and features, while also exploring the hood's internal components. Once a hood is selected via the app, the user can explore it in more depth with live animation and feature

NEW AT KBIS

Must-see products making their debut at the 2023 Kitchen and Bath Industry Show.

acquabella

SIDLEY BATH

This elegant new tub from Acquabella puts a modern spin on vintage charm.

Featuring an effortless blend of modern chic and vintage style, the refined Sidley is visually stunning with classic lines and soft curves. A graceful rolled top rim mirrors a similar design at the foot where the tub flows neatly to the floor. The tub is sculpted from Acquabella's signature Dolotek® material, an engineered solid stone blend of natural stone and specialty resins that is eco-friendly, exceptionally durable and easily maintained. The luxurious Sidley tub measures 66" x 33" and is offered in a beautiful Snow White hue with gloss or matte finish.

DUOBETON SHOWERBASE

Stylish showers for multi-generational households.

Crafted from Akron®, Acquabella's signature compound comprised of polyurethane and mineral fillers, the DuoBeton is pre-sloped and can be installed in a standard or zero-threshold configuration. An easy, water-tight installation allows the base to fit flush against the floor for maximum accessibility. This versatile collection is available in six sizes, five colors, and two non-slip textures. The high-definition Beton finish has the modern look and feel of concrete, while the Slate finish mimics its more traditional namesake.

See Acquabella at KBIS booth # N2363, or visit acquabella.us

RUVATI.

DUAL-TIER NOVA WORKSTATION

Ruvati has elevated the workstation sink to a new level of style and sophistication.

Nova sinks include all the must-have features of Ruvati's workstation design, but the accessories have a dramatic matte black finish that accentuates the luster of the stainless sink basin. Available in 33" and 45" configurations, the Dual-Tier Nova Collection has been thoughtfully designed from top to bottom. A stacked pair of tracks allows accessories to slide into place as needed for prep, serving and clean-up. Each Nova includes a black composite cutting board, a platform with mixing bowl and colander, a three-bowl serving board and a foldable drying rack.

MARINO RVQ6290 PREP SINK/ICE CHEST

Ruvati elevates al fresco entertaining with a new addition to the Merino Collection of outdoor sinks.

Marino Model RVQ6290 is an ingenious combination of a workstation sink and insulated ice chest – a perfect pairing that is certain to be the centerpiece of backyard parties for years to come. This ultra-durable sink is built to withstand weather extremes and is loaded with practical features that make the most of compact spaces. The ice chest component boasts double-walled construction and triple layers of insulation to keep ice frozen for up to 24 hours. Its 10-gallon capacity can accommodate up to 30 cans of beer or 15 bottles of wine. The workstation side offers integrated ledges that support a stainless steel colander and a thick cutting board made of food-grade polymers that are resistant to the elements.
