**Clockwise from top left:
Ruvati Ibiza Collection Workstation – Best of KBIS 2024 Finalist;
California Faucets – The Pot Filler; and
Elkay Quartz Jubilee Sink.**

Fashion Greet Function

Ruvati debuts innovation with a new addition to their line of workstation sinks for the wet bar. The new Ibiza Collection features a patent-pending design with dynamic jets for fast and easy cleaning perfect for a home bar, RV or a “tiny” house setting.

California Faucets “cooks up convenience” with an expansion of their award-winning Kitchen Collection. The Pot Filler features the same Italian-inspired design and California craftsmanship as the original Kitchen Collection and is designed to coordinate with faucets. The Pot Fillers faucets add an attractive aesthetic, and eliminate lugging heavy pots to the sink, while keeping the sink open for other tasks.

Elkay quartz sinks offer superior durability and resistance to stains and heat. They also provide a wide range of design options, including stone-like finishes for a unique look. Available in a range of bold colors, Elkay’s Quartz sinks combine natural quartz with high-performance acrylic resin to resist stains, smudges and color fading; the sinks are heat safe up to 535°F.

“Smart plumbing fixtures offer surprising benefits for the homes we build from reducing waste, lowering monthly bills to making living spaces trendier. Advances in plumbing technologies have allowed builders to introduce smart technology to homeowners with fixtures designed to be more efficient, convenient, sustainable and hygienic.”
